

C60™

MORE SECURITY

NO MORE CROWDED CONTROL ROOMS.
LESS TRAFFIC MEANS LESS PROBLEMS.

MORE CONTROL

NO MORE EXTRA HANDLING.
C60 FILLS HANDS-FREE.

MORE ACCOUNTABILITY

NO MORE INVENTORY SHRINKAGE.
EASILY REPORT ALL TRANSACTIONS.

Smarter Narcotics Dispensing Made Simple.

DOSIS C60 fills, seals and patient-labels the 15/16- day single-medication blister cards used for narcotics in long term care, institutional, and correctional facilities. The C60 provides significant prescription throughput rates while requiring minimal space. At only 7.5 sq. ft. of floor space, this robot will **easily fit in almost any layout.**

C60 Narcotic Filling:

- Utilizes a smaller blister card [3 by 9 inches]
- Dispenses any quantity up to 16 doses per card
- Automatically splits an order to best fit into multiple cards
- Covers **80% of your narcotic dispensing**
- Compact footprint

As part of your controls process, C60's inventory reports show current stock level of each medication. Retrieve your reports from any computer in the pharmacy. Daily and shift audits are **quick and accurate.** DOSIS integration adapts into your workflow and automatically enforces your best operating procedures. Quick installation and training allows the C60 to take over the control room card filling.

The DOSIS C60 is **safer and more accurate.** Provide better service to your customers while easily maintaining compliance with your controlling agencies.
