

L60™

MORE SAFETY

NO MORE MISTAKES. THE CORRECT DRUG LABELED CORRECTLY EVERY TIME.

MORE PRODUCTION

NO WASTED LABOR. PROVEN TO SAVE MORE THAN ONE DOLLAR PER SCRIPT.

MORE RELIABILITY

NO MORE CALLING IN SICK OR LEAVING EARLY. L60 WORKS AROUND THE CLOCK.

▶ CARD DISPENSING

Blister Card Dispensing Made Simple.

The DOSIS L60 is the only viable robot that **meets your needs**: whether it is handling your **high-moving drugs** or supplementing your filling needs for the **extemporaneous drugs** in your formulary. The DOSIS L60 is the only product on the market that gives you the ability to achieve both **on-demand and pre-pack filling** with the same piece of automation.

The L60 fills, seals and patient-labels the 28/30/31- day single medication blister cards targeting long term care, institutional, and correctional facilities. The L60 offers **maximum value** to you by minimizing the space required to achieve significant prescription throughput rates for **all your filling needs**.

The DOSIS L60 is **safer** and more **accurate** allowing you to better serve your customers.

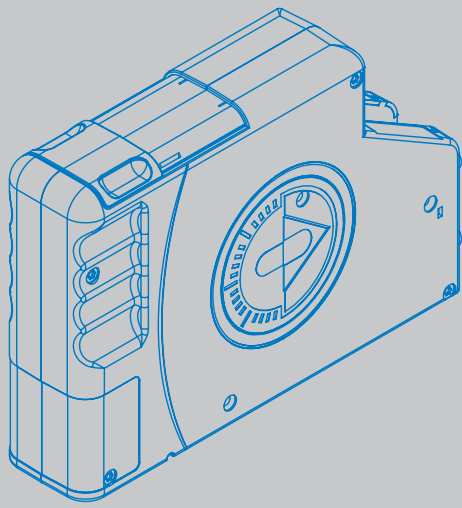

Simple Canisters = Smart Choice

The DOSIS L60 canister's simple design brings a new dimension to dispensing: inexpensive, no calibration, no additional fees, no sensors, no electronic components and no air gaskets. All this makes it an **AFFORDABLE CHOICE** to cover more drugs in automation.
